

Alan Gordon Engineering Co Ltd (Manufacturing) www.alangordoneng.co.uk

"The most important part of our IT system is our Oracle database manufacturing information system which runs on a Windows server. We need to have complete confidence that whoever looks after our IT, can ensure that these systems are kept "up & running" at all times. On each & every occasion that we have needed their technical support A & N Business Computer Systems have delivered excellent service."

John Waterworth, Managing Director, Alan Gordon Engineering Co Ltd
