

Plumbs Ltd (Manufacturing) www.plumbs.co.uk

"We needed to migrate our servers from Windows 2000 to Windows 2003 without any disruption or downtime. Not an easy task when you consider we have over 150 users. Andy Procter, IT Consultant at A & N, guided us through the complexities of a swing migration. The project was a success on every level; on time, on budget & done without any systems downtime. I would recommend A & N to any business looking for assistance with their servers or network."

Andy Stansfield, IT Support Analyst, Plumbs Ltd
